

With the Privacy Room you can transform your Fiammastor into a comfortable living area. The side panels are quickly put together with the exclusive patented Clip System. The upper part is fastened together with the lower part, the fabric of the awning is then blocked between the lower and upper rail by screwing the knob. No other fixing system is as stable as the Fiamma Clip System. A special sponge is fitted, vertically, on the back part of the side panels and is fixed against the vehicle by an aluminium telescopic pole (included). The front panel is inserted in the front rail of the awning and with the YKK zip it is united with the side panels of the Privacy.

Standard delivered with: Front panel with window and independent door that can be moved onto the

More living space to your holiday with the essential Privacy® Room

right-hand or left-hand side. 2 side panels with windows with mosquito net. The windows can be rolled up. Clip System installation system (p. 23), Curtains Kit Oslo (p.23), Mega Bag C (p.26)

FIAMMASTOR

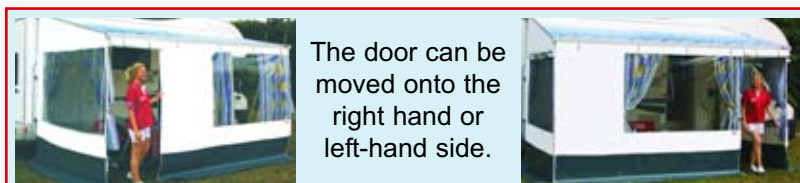

The exclusive Clip System Fiamma enables a quicker installation, as it only comes in two pieces. The upper detachable part makes it easier to insert the fabric of the awning and keep it stable.
