355.353 - 355.587
Several other patents
pending.

**ITALIAN
DESIGN**

Elegant, nice-looking and really affordable. The only awning for caravans and minivans with tubular rewind for wrinkle-free fabric

The Fiamma Caravanstore® is easy to use and install: it takes only seconds to roll it out completely. Simple and essential, Fiamma Caravanstore offers excellent shelter from sun. It is the preferred bag awning because there is also space for all the accessories and wall rafter support kit in the bag. Number One in European sales.

How to install the Caravanstore:

@..."Hi Dave, we've used the Fiamma Caravanstore for 4 years now on a Challenger that also has a sloping front and had no trouble with it. It takes about 1 minute to erect and 2 to put away. It doesn't need a horizontal rail for it to fit correctly."
Jim

"I have a Caravanstore on my Adria Unica. The forwardmost 2 feet of the awning rail occupied by the awning slopes downwards. No problem rolling or unrolling. I agree with Jim regarding times to put up and take down. I usually guy the poles with 2 lines on each for security."
Neil
