

CARRY-BIKE®

EXCLUSIVE CARRY-BIKE PRO LINE

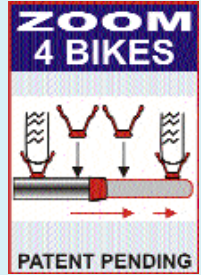

Approved by the
German Quality
Test Institute

ZOOM 4 BIKES

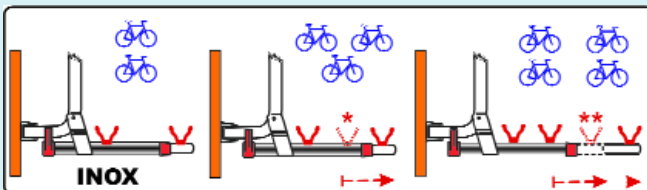

The Carry-Bike Pro is recommended by industry experts because it is the strongest bike carrier on the market.

Its solid telescopic rail support offers the best system for fastening it to the motorcaravan wall. It is the only one with patented ZOOM 4 BIKES rail support.

PATENT PENDING

German Patent
44 27 450.5

Patented telescopic rail support

Exclusive Carry-Bike Pro Line.

Patented telescopic rail support. The only rail support structure with rounded tube with bigger thickness. Rail support structure with reinforced points in stainless steel and reinforcement inserts in aluminium. Exclusive and patented Bull Shock Absorber to guarantee maximum resistance to vibrations.

Carry-Bike Pro 4-bike with two extra rails and Bike-Blocks. Staggered rails make it easy to position two extra bikes

BULL - SHOCK ABSORBER

New system of shock and vibration absorption while travelling

German Utility Model: 20 2004 008 369.8

TO BE ON THE SAFE SIDE

The Carry-Bike Fiamma have passed the German GS-TUV tests for both the fixing brackets and the carrying structure. These tests are very strict and are continuously updated and adapted to laws in force.

For this reason the Fiamma Carry-Bike are preferred by many motor home constructors who preinstall the original Fiamma fixing brackets on their vehicles. Attention: On the market there are copies of bike carriers made by other brands that sometimes are adapted to the original Fiamma fixing brackets. For the security of the people who travel, Fiamma highly recommends to verify that only the original Carry-Bike Fiamma with the GS-TUV label are mounted on the preinstalled Fiamma fixing brackets.

Fiamma Carry-Bikes are produced at our factory in Cardano al Campo, Italy, using the latest technology
