The first easy to use, sturdy and lightweight bag awning
The Fiamma Caravanstore® is easy to use and install: it takes only seconds to roll it out completely. Simple and essential, Fiamma Caravanstore offers excellent shelter from sun. It is the preferred bag awning because there is also space for all the accessories and wall rafter support kit in the bag. The larger roller can be rolled-up in both ways. The new Caravanstore makes maintenance even quicker and easier.

How to install the Caravanstore:

Simply
THE BEST

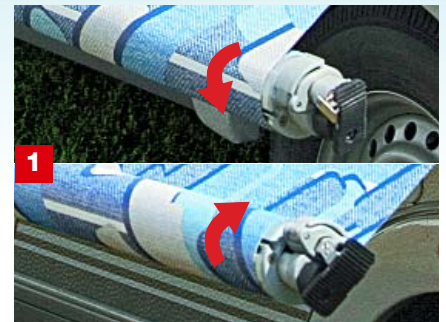

Caravanstore 07

The fabric is perfect and wrinkle-free

The awning fabric easily unrolls and rolls up on the convenient aluminium roller. It is wrinkle-free even after long storage and in just a few seconds it is just like new, ready to give shade. Thanks to its wide roller the Caravanstore® is easy to unroll and roll up and above all the fabric is wrinkle-free!

The exclusive system allows the roller to roll-up in both ways (photo 1).

The original bag awning is produced only by Fiamma!

The wall rafter support kit is standard delivered and provides safe support for the awning rafter to prevent damage to the vehicle wall

The Fiamma Caravanstore® is the most compact awning

The awning's rafters and rods fit inside the aluminium roller-tube. No vibration when travelling and no loose parts fall out when opening the bag.

EXCLUSIVE 100% ROUND-FRAME Sturdy aluminium closed roller of bigger size

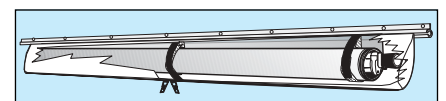

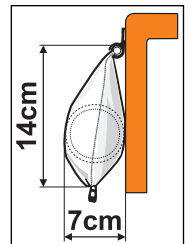

Caravanstore® is the only awning with the fantastic benefit of having the Round-Frame roller tube in aluminium on which the fabric is wound.

Solid, telescopic arms and legs with rounded design. The Caravanstore can be fixed to the ground with pegs (A) or to the wall of the vehicle with wall brackets (B).

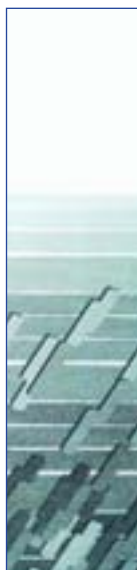

Caravanstore takes up little space when closed inside its waterproof bag: its bag height is just 14cm.
