How to install the Caravanstore:

Caravanstore
 The awning for the caravan,
 number One in European sales.

Italian Design

The first easy to use, sturdy and lightweight bag awning

The Fiamma Caravanstore® is easy to use and install: it takes only seconds to roll it out completely. Simple and essential, Fiamma Caravanstore offers excellent shelter from sun. The set of pegs is inside the rollertube and is standard delivered, easy to take out and install as it is articulated and telescopic, so it cannot fall down or be lost. For those reasons the caravanstore is the favourite. Inside the bag you can find also the improved wall fixing kit. The larger roller can be rolled-up in both ways.

It is enough to undo one screw in order to disassemble the legs and replace the fabric for a quick and easy maintenance.

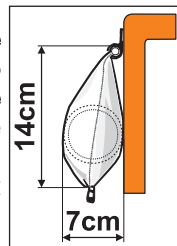

Caravanstore
 The fabric is perfect and wrinkle-free

It is wrinkle-free even after long storage and in just a few seconds it is just like new, ready to give shade. Thanks to its wide roller the Caravanstore® is easy to unroll and roll up and above all the fabric is wrinkle-free!

The exclusive system allows the roller to roll-up in both ways (photo B).

Caravanstore takes up little space when closed inside its waterproof bag: its bag height is just 14cm.

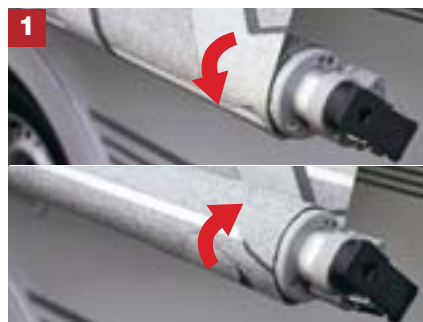

**The original bag awning is produced only by Fiamma!
It is impossible to loose pieces: few pieces, less weight**
