

Thanks to its wide roller the Caravanstore® is easy to unroll and roll up and above all the fabric is wrinkle-free!

The fabric is perfect and wrinkle-free

The awning fabric easily unrolls and rolls up on the convenient aluminium roller. It is wrinkle-free even after long storage and in just a few seconds it is just like new, ready to give shade.

The wall rafter support kit is standard delivered and provides safe support for the awning rafter to prevent damage to the vehicle wall

The Fiamma Caravanstore® is the most compact awning

The awning's rafters and rods fit inside the aluminium roller-tube. No vibration when travelling and no loose parts fall out when opening the bag.

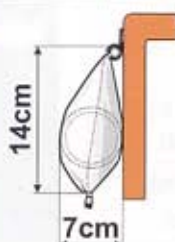

FIAMMASTOR

Solid, telescopic arms and legs with rounded design. The Caravanstore can be fixed to the ground with the pegs (1) or to the wall of the vehicle with the wall brackets (2). See page 15.

Sturdy aluminium closed roller Caravanstore® is the only awning with the fantastic benefit of having the Round-Frame roller tube in aluminium on which the fabric is wound.

Caravanstore takes up little space when closed inside its waterproof bag: its bag height is just 14cm.
