

OMNISTOR•5500 & 5800

Extra large sizes

Security locks on both sides

Fully equipped

Omnistor 5800 with velcro

The Omnistor 5500 is available up till 6m length and fits perfectly to larger vehicles. The Omnistor 5800 has a 2,75m projection from lengths upwards of 4m.

- **Operation** The operation is extremely easy. The advantages are the user-friendly telescopic hand crank (up to 155cm!), the built-in end stroke that ensures it is impossible to roll up the fabric in the wrong way and the well-known Quick Lock System for easy adjustment of the support arms.
- **Construction** The retractable arms are even **more robust** and have twin cables for maximum fabric tension. The double security lock on both sides of the awning avoids the opening of the awning whilst travelling. These awnings have an **extra large roller tube diameter** (63mm).
- **Installation** Standard installation is done by hooking the awning into the existing rail or by means of an adapter set with counterplates, supplied as standard. Other adapters page 26 & 27.
- **Comfort** Two clips for storing the hand crank are supplied as standard (1). The 5500 can be extended with a Safari-Residence or a Safari-Room with clips (2), the 5800 with a Safari-Room 5800 (3). The support arms can be installed to the vehicle wall by using the mounting brackets supplied or to the ground.
- **Extra** Built-in 12V motors with emergency operation for the 5500 and 5800 are available (4). **The motor cannot be installed retrospectively on a manual awning!** **New:** the **Omnistor 5500** is available with anodised box in fabrics 03 and 04.
- **Colours**
