

# OMNISTOR•W-150

## Window awning

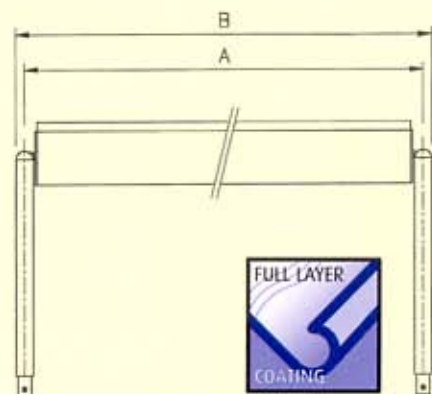

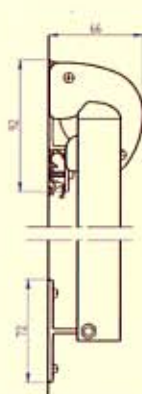

## Automatic roller system

## Automatically locks

## For caravan and motorhome

The Omnistor W-150 is suitable for both caravans and motorhome. The box colour is alpine white. In the rolled up position the awning is automatically closed.

- Operation** The awning is pulled out manually and is automatically retracted.
- Installation** Installation is carried out by using the supplied adapters onto the existing awning rail or by using the rail supplied. An installation set for less stable caravan walls is supplied as standard. Not suitable for installation at the front of a caravan!
- Comfort** The awning can be combined with a W-150 bike carrier, which is also installed in the caravan rail. The bike rack remains in place when the awning is opened. (see page 46 for the W-150 bike rack.)
