

OMNI•LADDER

NEW

All Omni-Ladders are made of anodised aluminium and have stainless installation parts.

1. New ladder with oval, white lacquered arms. 5 steps.
2. New folding double ladder with oval, white lacquered arms. 10 steps.
3. New roof rail with oval profiles. Standard size of 3m which can be easily shortened to the required length. Available in aluminium or white lacquered finish. End caps for covering the installation points.

Optional for 3: a set of 2 cross rails in aluminium with a standard length of 2,25m. Easy to shorten to required length.

4. Ladder with 6 steps.
