## MOUNTING RAIL AUTOSTAR

Profile allowing every Omni-Bike to be installed to an Autostar camper so that the fixation fits on the bottom of the vehicle wall. This makes installation and removal easier. art.nr.18052300

## ANGLE SUPPORT 68cm

Profile for improved distribution of the pressure on the vehicle wall when installing an Omni-Bike. art.nr.18052000

## BIKE•HOLDER

Easy locking system keeping the bikes at a fixed distance from each other in order to avoid damage. Made of anodised aluminium and synthetic clamps that fit the bike frames from 25 to 70mm diameter. A for the first bike, B for the second bike, C for the second bike (for Omni-Bike plus 3-bikes), D for the third bike and E for the fourth bike. You can also order a set of A, B and D.

## BIKE•COVER

Washable cover for protection of the bikes and bike rack against rain, pollution and dust. Available in two versions; "Prestige" type made in solid waterproof PVC fabric and "Elite" type made in very light PVC fabric with rubber coating.

	2 to 3 bikes	4 bikes
Prestige	art.nr 18051400	art.nr 18051404
Elite	art.nr 18052500	art.nr 18052504

## SHORT VERSION KIT

To convert an Omni-Bike plus to a Short version. art.nr.18500100
