Travel pleasure for life!

The spacious white roof boxes in the Top-Box series have been for many years now the eye catchers of the European highways and campsites. They are the classics in the camping sector!

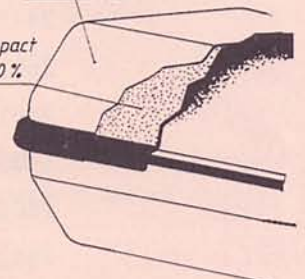

Operation: The box is easy to open and close with the integrated handle. Watertight security lock with key and hinges made of rustproof steel.

Construction: The boxes are made of ABS-PLUS material which is resistant to shocks and weather conditions. Co-extruded with an ultraviolet protection layer to prevent quality degradation during the process of ageing. Reinforced with aluminium inner frame with waterproof rubber foam band.

Comfort: The boxes are equipped with one or two gas springs.
